3. Course Entry Requirements / Kursus Ingang Vereistes

- An Artificial Insemination Certificate for Cattle or the attendance of our Artificial Insemination Course for Cattle during the same week as the Pregnancy Awareness Course / 'n Kunsmatige Inseminasie sertifikaat vir Beeste of die bywooning van ons Kunsmatige Inseminasie Kursus vir Beeste in die selfde week as die Dragtigheids Waarnemings Kursus.

4. Course Introduction / Kursus Inleiding

- The Pregnancy Awareness course affords the AI technician the basic skills to assess pregnancy rates within his herd to prevent inseminating possibly pregnant cows presented for A.I. While determining symptomatic courses of infertility remains the realm of the Veterinarian, basic pregnancy awareness contributes to the identification of non-functional (not performing) breeding cattle. The cost implication of carrying these cattle consuming resources long after breeding periods also plays a huge role in productivity and therefore profitability.
- Die dragtigheids waarneeming kursus stel die KI-tegnikus bloot aan die basiese tegniek om dragtigheid te bepaal binne sy eie kudde om K.I.te verhoed wat reeds in kalf is. Terwyl die bepaling van onvrugbaarheid, abnormaliteite en finale dragtigheids bevestiging bly die werk van die veearts, basiese dragtigheids waarneeming dra by tot die identifisering van nie funksionele diere. Die koste-implikasie van die aanhou van die nie presterende aanteel, lank na die boer se teel periodes, het 'n groot rol in die produktiwiteit en dus winsgewendheid van die kudde.

5. Certificate / Sertifikaat

- Issued on completion / Uitgeryk sodra kursus voltooi is
